BOB PICKERELL
BRIAN KONZEN
JUDY WHITAKER**

Alderman McDowell called the Planning & Zoning Committee Meeting to order.

McDowell stated that he and Alderman Elliott have walked the area after the rain and have discovered some issues because people overbuilt on the easement. We found actually a fence around the catch basin this was on Aubrey; on Wilson Park Lane, a chain link fence was put up around the drain and it is over grown. I would like the Attorney to review the Ordinance and see if there is something that we can do about someone that is impeding the water flow.

Discussion by the Mayor, Council about the water issue that the City has had with the 9.5 inches of rain and easement issues; discussion on routes to get to easements.

Mayor stated that you would find all kinds of things built on the easements.

MOTION By McDowell, second by Elliott to adjourn the Planning & Zoning Committee Meeting. ALL VOTED YES. Motion Carried.

MEETING ADJOURNED.

**Attest
Judy Whitaker
City Clerk**
